Software Quality Control Tester

We are currently seeking personnel to perform quality control testing for software for various client contracts.

Description of duties: The candidate must be qualified to test software and have automation experience.

Requirements: The candidate must have a minimum of 2 years experience in software quality control. Must be reliable, autonomous, motivated, and be detail oriented. Candidate must have a strong command of script languages such as Perl or Python and should have a good knowledge of Test Automation software such as Mercury Load Runner, Borland Silk Tools, and HP Test Suite.

Bilingual (English/French; Written & Oral) would be an asset.

To apply, send your CV with a cover letter describing your interests and aptitudes to fill the position. CVs should be sent to jobs@efficiens.ca.
